

STATEMENT ON CORPORATE GOVERNANCE |

Corporate Governance is the process and structure used to direct and manage the business and affairs of TA Global Berhad (the "Company") towards enhancing both business prosperity and corporate accountability. Its ultimate objective is to realise the long term shareholders' value whilst taking into account the interests of various stakeholders.

The Board of Directors (the "Board") of the Company believes that sound corporate governance benefits the Company's employees and the communities in which the Company operates, and it is committed in ensuring that the Principles and Recommendations promoted by the Malaysian Code on Corporate Governance 2012 ("MCCG 2012") are observed and practised as a fundamental part of discharging its responsibilities to protect and enhance shareholders' value and the well-being and ongoing development of the Company.

The Board is pleased to disclose below the manner and the extent in which it has applied the principles and complied with the recommended best practices set out in MCCG 2012 and governance standards prescribed in the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Malaysia") (hereinafter referred to as the "Main Market Listing Requirements") throughout the financial period ended 31 December 2015. The Board will continue to further take measures to improve compliance with the principles and recommended best practices in the ensuing years.

BOARD OF DIRECTORS

A. Composition and Size of the Board

As at the date of this statement, the Board consists of nine (9) members comprising an Executive Chairman, two (2) Executive Directors, two (2) Non-Independent Non-Executive Directors and four (4) Independent Non-Executive Directors. The current composition of the Board complies with Paragraph 15.02(1) of the Main Market Listing Requirements which required at least one third (1/3) of the Board are Independent Directors.

The Securities Commission had, in its Corporate Governance Blueprint 2011 ("Blueprint 2011"), recommended gender diversity in the boardroom, with the goal of having women participation on boards to reach 30% by 2016. The Board is supportive of gender diversity in the boardroom as recommended by the Blueprint 2011. Presently, there are four (4) female Directors, representing 44% women participation on the Board of the Company.

B. Board Balance and Independence

The Board had examined its size and felt that its current Board size of nine (9) members comprising almost fifty percent (50%) Independent Non-Executive Directors is effective and appropriate. There is a good mix of skills and core competencies in the Board membership.

The Board comprises of directors with the areas of expertise required to ensure effective governance of the Company and provide strategic advice to the Management. The Directors through their vast experiences and qualifications in economics, accounting, finance, legal, property development, property investment, hospitality and business management provide effective contribution and support to the functions of the Board. They bring with them a broad range of skills, experiences and knowledge required to successfully direct and supervise the Group's business activities which are vital to its success.

A brief profile of each member of the Board is presented on pages 8 to 18 of this Annual Report.

There is clear segregation of responsibilities between the Executive Chairman and Chief Executive Officer to ensure balance of power and authority. The Executive Chairman, who is not previously a Chief Executive Officer is responsible for the leadership, effectiveness, conduct and governance of the Board, while the Chief Executive Officer has overall responsibility for the day-to-day management of the business and implementation of the Board's policies and decisions.

The Executive Directors are responsible for the day-to-day operational management of the Group and its businesses. There is a clear division of responsibilities at the helm of the Group to ensure a balance of authority and power. The executive powers of the Executive Chairman, Chief Executive Officer and the Executive Directors are balanced by the presence of Independent Non-Executive Directors. The four (4) Independent Non-Executive Directors are not employees and they do not participate in the day-to-day management as well as the daily business of the Company.

They bring an external perspective and exercise their independent judgement on issues of strategy, standards of conduct, resources, processes and safeguarding of interests of minority shareholders.

In respect of potential conflict of interest, the Board is satisfied that there is no undue influence involved in all related party transactions. All such transactions were independently scrutinized by the Audit Committee to ensure that they complied with the Main Market Listing Requirements. As and when a potential conflict of interest arises, it is a mandatory practice for the Directors concerned to declare their interests and abstain from the decision-making process. The Directors have a duty to declare immediately to the Board should they be interested in any transaction to be entered into directly or indirectly by the Company. An interested Director is required to abstain from deliberations and decisions of the Board on the transaction and he or she does not exercise any influence over the Board in respect of the transaction. In the event a corporate proposal is required to be approved by shareholders, interested Directors are required to abstain from voting in respect of their shareholdings in the Company on the resolutions pertaining to the corporate proposal, and will further undertake to ensure that persons connected to them similarly abstain from voting on the resolutions.

This division of duties and responsibility represents the practical alternative of compliance with the recommended practice by MCCG 2012 requiring the Chairman of the Board to be a Non-Executive Director.

Notwithstanding that the Board does not comprise majority Independent Directors where the Chairman is not an Independent Director as recommended in the MCCG 2012, the Independent Directors are able to exercise strong independent judgement and provide independent views and advice to all Board deliberations. This represents satisfactory alternative to the requirement of the recommended best practices of having the majority Board members to be Independent Directors where the Chairman of the Board is non independent, with appropriate representations of minority interest through the Independent Non-Executive Directors. Nevertheless, the Board endeavours to fulfil the said recommendation in the coming years.

The current size and composition of the Board reflects the interest of shareholders as the current structure of the Board ensures that no single individual or group dominates the decision making process. The presence of Independent Non-Executive Directors also safeguard the interest of the stakeholders in ensuring that the highest standard of conduct and integrity are maintained.

The Board had also implemented a process for annual assessment of the effectiveness of the Board as a whole, the Board committees, and for assessing the contribution of each individual Director. This annual process will be carried out by the Nomination Committee.

The Group Audit regularly evaluates the effectiveness of the risk management process, reviews the operating effectiveness of the internal controls system and compliance control in the Group. The Head of Internal Audit is invited to attend the Audit Committee meetings to facilitate the deliberation of audit reports. The minutes of the Audit Committee meetings are then tabled to the Board for information and serve as useful references, especially if there are pertinent issues that any Directors wish to highlight or seek clarification on.
